Assembly Instructions:

1. Print and cut out the pieces on the previous page.
2. Use the white border pieces as templates and cut out these shapes from the P.K. Glitz Sticky Paper.
3. Peel off the Sticky Paper backing and apply the corresponding kaleidoscopes to the center of each piece.
4. Apply the P.K. Glitz Micro Fine Glitter to the exposed sticky edges of the pieces, use the brush to remove any excess.
5. Using pop dots or double sided foam tape stack the kaleidoscopes on top of each other to form the ornament.
6. If desired embellish further with beads.

Supplies Used in the Project:

Poppy Hill Designs, Inc. – www.poppyhilldesigns.com

Dazzling Reflections Kaleidoscope Software

P.K. Glitz – www.PKGlitz.com

Sticky Paper

Color Wheel – Winter 1 Glitter Glitz – Golden Diamond Glitter

Assembly Instructions for the Card:

1. Cut a 12" x 6" piece of card stock for the card base. Score and fold at 3" and 9" to form the gate fold.
2. Cut 2 panels from metallic or mirror paper at 2.5" x 5.5".
3. Run the metallic panels through an embossing machine, example a Cuttlebug – I used the Diamond folder for this project.
4. Adhere the embossed panels to coordinating cardstock and trim so that you have 1/8" or so around the edges. Adhere the panels to the card base.
5. Using removable tape attach the diamond ornament to the front of the card.
